## RICHARD'S MESSAGE

Dear G7N Conference Delegates and all G7N Members,

**TO ALL OF YOU ... You have been nothing short of FANTASTIC ... THANK YOU!**

Much love to all of you and thank you so much for your support and trust in allowing us to finally getting the conference done!

I cannot deny that having spent the past few months working on making this happen alongside my team, hotels, and suppliers and also spending over 2 weeks running TWO 'Back to Back' events .... there was an impact on many of us physically and mentally but more importantly, it was the 'high powered' enthusiasm, tenacity and grit that got us back and of course, there will be a momentary lapse of energy following such 'high-fueled' intensity on making sure we did everything possible to make everything happen as best as we could for you all. I believe that it was all worth it and I would and probably will do it again and again! (So watch out ... you never know what's going to happen next at G7N !!)

When we talk about experiences, we often receive a mixed sentiment of positivity together with a variety of fair and balanced feedback which is sometimes not so positive. But I must say, I have never, ever received so many positive responses to the conference as we have to date following the conclusion of the G7N 2022 conference.

The sheer volume of personal positive messages received, has simply humbled all of us at G7N. I am still in shock that we were finally able to get this much-awaited reunion done and to finally say **"YES! WE ALL MADE IT HAPPEN!!"**

Looking back at the messages I wrote to all of the community back on January 30th, 2020 – I can now really identify and realize what a difficult business decision was made to postpone until we felt safe to reunite. I also believe that in despite of what impact those decisions made on G7N as a business – it was the right thing to do and we never ever gave up on our promise to deliver 3.5 years later.

To have the ability to come back and make sure we didn't let anyone down can only be described as one of the most prolific moments of my life and at the same time, your kind messages reflect the same sentiment. Of course, it was not easy to put the puzzle back together and find our way through the years of confusion... but somehow, we were able to finally achieve the results that even I was questioning 'Can we ?'... **'Of course, we can!' Anything is possible if you really put your mind, heart, and soul into something, and this is exactly what we did. When I say 'WE' I really mean 'WE' as in 'US' as in all of the hundreds of people that were participants in making this possible.**

There is no doubt and no embarrassment in admitting that my favorite poem 'IF' By Rudyard Kipling .... kept us on track and focused.

<https://www.poetryfoundation.org/poems/46473/if--->

It is indeed the power of maintaining confidence in the face of any difficulties that make us who and what we are. I can only describe this conference as a magical and fulfilling experience for everyone that took part and everyone indeed played a part in its success.

**Richard Overton**

Director of G7N

I would like to thank each and every one of you for your belief in the G7N team and we must also applaud the hotel's management, staff, suppliers, and production teams from every level. Many fail to see the sheer mass collaboration, project management, and months of planning in order to deliver as close to military precision as possible to make these types of events happen. It really was a collaboration and a team effort from every level. I can only take my hat off and say **'WELL DONE EVERYONE AND THANK YOU AGAIN!'**

For now, this is my simple message of thanks and not only was it a pleasure to be involved in this it was an honor to serve you all with a well-deserved reunion of life and yes indeed a celebration of coming back together after all of these difficult years to bring color, life, and happiness back into a community that I believe is very special.

A final message to thank all of those unknown people who played significant roles in the success of our conference, from every level of each position of each person involved, everyone played a pivotal role in our success. A huge thank you to our sponsors and for everyone that trusted in us to deliver and of course to the incredible team that I am so lucky to lead forward into the next chapter of our network community future and also for their own personal development and futures too.

So yes, we have built a community and culture and yes, we believe this will grow stronger, and we will continue to work alongside our chosen vendors to implement potential solutions under our group umbrella and we will continue to strive for continual improvement in everything we do.

**"Being open-minded means considering lots of different possibilities, and not just sticking to one belief. We, often tend to stand firm on the viewpoints that we feel are right, thereby, rejecting the other possibilities. This can stall our growth and development as an individual in the journey of life.**

**We should always welcome different ideas and possibilities that life has to offer. We need to adapt to the ever-changing environment, and the best way to do this is to really open your mind and embrace all different ideas and opportunities ..... what G7N has done is try to embrace all cultures in the logistics world and bring together a balanced and neutral approach for allowing people to see things in a more fun and potentially meaningful way"**

**In other words ..... Just 'Live ..... Love ..... Logistics ..... without being boring!**

**One Life, one Journey, one Destiny.**

Sincerely,  
Richard

## GSP Logistics transportation from Germany to Azerbaijan

Our G7 member, GSP Logistics has recently transported a total of 500 tons of potato seeds, including 13 tracks from 9 cities in Germany.

In agriculture, logistics is the process of ensuring the optimal and sustainable flow of agricultural goods from producers to suppliers and, finally, to consumers. Some of the activities needed to facilitate this logistics process include agricultural production, acquisition, storage, and distribution.

Reactivity, agility, and performance are GSP Logistics' top priorities!

## Global Connect food segment cargo shipment from Turkey/Czech Republic to India

Our G7 Member, Global Connect has expertise in handling food segment cargo, they have handled approximately 400 containers this season of Poppy seeds imported into India from Turkey / the Czech Republic.

The commodity is regulated by the Government of India and requires a certificate and NOC for importation from the Central Board of Narcotics (CBN). Over the years they have been handling these shipments and members, especially from the exporting countries Turkey / Czech Republic can reach them for custom clearance or any other

logistics requirements into India.  
Well done Team Global Connect.

## Givven Logistics Projects shipments synopsis

GIVVEN's recent project onset from Shanghai, China for a Fortune 500 listed company, has indeed been a marvel for this year-old start-up. Each of these back-to-back projects totaled four shipments, marking over 4300+ tons, and over 7000 CBM of volume collectively. The shipments were all listed to be with multiple pickup points and had to get through the time delays that were caused due to full or partial lockdowns around their pickup port. The team proactively worked with a hand-picked, screened team that had to work in isolation on assembling all the cargo at the same point and transporting them to the vessel safely.

These projects also showcased GIVVEN's expertise in

the China Trade Lanes, as they were able to showcase an error-free outcome despite the difficulties that came forth with time. Their outbound team in China took complete care of the first phase of the dispatch at Shanghai. "The first vessel of this project was a huge milestone for us, we did go through many obstacles, especially with the rising COVID situation in China, we had to face delays and change of routings. But when that first vessel arrived safely it felt huge, we learned something new every day. And now here we are, with three more accomplished shipments", recalls the team.

# Members News

The issues around the surroundings prolonged and the delays and natural issues continued to have their effects on the course of the next shipments too.

The team also added how despite all the prolonged work, the project was a success, and it has been a huge step for them to explore, prove their strengths and show off their proactive approach to situations despite being a team that is younger than a year.

On reaching their destination at the Ennore Port, GIVVEN's specialized Operations team worked through the discharge of the cargo, around the clock. Necessary quality checks and inspections were carried out and the cargo was safely protected and stored before the commencement of delivery. On the completion of customs formalities, the cargo was moved and delivered with more than 50+ vehicles, and the team coordinated it all.

The team also quickly added, "The project was a success, and it was not just because of the team but also the vessel owners, the various port operators, and all the transport coordinators that cooperated with us through this time". The team at GIVVEN took care of the whole process from the loading,

tracking with on-time updates, last-mile delivery, and unloading, GIVVEN provided an intact service to its client.

Since its inception, GIVVEN has been very active in establishing its strong play in the market. Being led by a team of experienced professionals with a strong

financial, customer, and global network credentials, GIVVEN's services range from Airfreight, Ocean Freight, Customs Brokerage, First-Last Mile Deliveries, Warehouse & Distribution, and Project Logistics. They adhere to the most stringent standards of Quality, Health, Safety, and Environment along with their certifications of ISO 9001: 2015 for QMS, ISO 14001: 2015 for EMS, ISO 45001: 2018 for OHSAS in all their operations.
